

2017 Topsoil Program

Prices and Procedures

Caro and Sebewaing Factory

Demand for conditioned topsoil at the Caro and Sebewaing factories has increased significantly. As a result, Michigan Sugar Company will begin charging Non-Members who receive topsoil.

The 2017 Topsoil Program will go into effect April 1, 2017.

Pickup Procedure for Caro

Customers picking up topsoil in Caro **will not** be required to weigh at the factory scales because of the distance from the loading area to those scales. All customers (including Members) must provide their coupon to the loader operator before loading. The operator will approximate the load size based on the coupon presented.

Pickup Procedure for Sebewaing

Customers picking up topsoil in Sebewaing will weigh in and out at the factory scale. All customers (including Members) must provide their coupon at the scale before loading.

Members and Non-Members are the two groups of customers who are recognized in the procedures. Pricing and procedures are as follows:

Members

Member will not be charged for topsoil, but will have to print Topsoil coupons to receive the product. This procedure is very similar to the Lime program.

One topsoil coupon will be required for each load of topsoil shipped. Members may obtain coupons in the Agricultural Office at any factory location. The office staff will print coupons. Members may also print coupons from the Michigan Sugar Company website. If you would like to print your coupons on the website, it is not necessary to visit the office; you may take your printed coupon directly to the scalehouse in Sebewaing or present it to the loader operator in Caro.

To print your topsoil coupons online:

- Go to www.michigansugar.com.
- Log in using your member assigned user ID and password.
- Once logged in, click on the Main Tab.
